SKILLS

- React, Next.js, TypeScript, JavaScript, HTML, CSS (TailwindCSS), Playwright, Jest, Vitest
- Node.js (Express, Fastify), PostgreSQL, Drizzle, Zod, REST APIs, Docker
- AI-assisted development: Claude Code skills, hooks and plugins, AI code review

WORK EXPERIENCE

Ovoko: *Frontend Engineer* 06/2026 – Present

- Frontend engineer on an interactive SVG parts-diagram feature, now in production and generating revenue
- Integrated a third-party parts provider API and designed the data flow from its schema to selectable SVG parts and listings
- Code quality domain lead: built the team's AI agent setup (skills, hooks, custom commands) and AI code review

Vinted: *Web Engineer* 10/2023 – 05/2026

- Built an internal configuration dashboard for offline item verification workflows, implementing complex recursive UI and rule logic using React and Next.js
- Refactored legacy class components to modern functional and Server Components, and expanded automated testing with Jest and Playwright across critical user flows
- Delivered user-facing features for the item upload experience end-to-end, including A/B tested releases, in collaboration with backend and machine learning engineers, as well as product teams

Edigino: *Full-Stack Engineer (Contract)* 08/2023 – 11/2025

- Built an interactive public kiosk application for a city tourism use case using React, integrating map data, location discovery and dynamic content navigation
- Developed a full-stack meal-planning and logistics system replacing spreadsheet workflows, with custom dashboards, data entry flows and printable order generation
- Implemented frontend dashboards for a vehicle import logistics platform to manage container shipments, collaborating with a multi-engineer team

PROJECTS

InvoiceTrackr: *Creator* 2024 – Present

- Invoicing, payments, expenses and tax estimates for Lithuanian freelancers, built solo and live in production
- Next.js, Fastify, PostgreSQL (Drizzle), shared Zod schemas, PDF and email, CI, Dokku; 160+ merged PRs

Zero Guess: *Author* 2026

- Claude Code plugin that makes AI agents ask the questions that matter first; in Anthropic's plugin directory

EDUCATION

CodeAcademy || Vilnius, Lithuania || 01/2023 – 08/2023
Frontend Development Bootcamp

CS50: Introduction to Computer Science || Online Course || 01/2023 – 08/2023
Harvard University – edX – Completed
